Invitation to the 2023 Mexican Stata Conference

MultiON Consulting, StataCorp, and Centro de Investigación en Alimentación y Desarrollo (CIAD) extend this invitation to the **2023 Mexican Stata Conference**, to be held in person on October 26th and 27th, 2023, at CIAD in the city of Hermosillo, Sonora, Mexico.

How can I take part?

The 2023 Mexican Stata Conference is an international forum enabling discussion of the most relevant and groundbreaking developments in econometrics, health sciences, social sciences, and statistics, through keynote addresses and other presentations selected by the Scientific Committee and which demonstrate originality in the application or development of Stata.

Call for Speakers

Prepare your executive summary in academic paper format for the 2023 Mexican Stata Conference. You must choose one of the following four topics: 1. Efficient data management, 2. Public health, 3. Econometric models, 4. Applications to social sciences.

Presentation Guidelines

All Stata users and interested parties are invited to submit abstracts, a subset of which will be selected for a short presentation (15 minutes) followed by 5 minutes for questions. All submissions proposed should demonstrate theoretical rigor and a practical approach to Stata commands or routines.

Speakers should also offer details of the methods used and provide one or two worked examples. Rather than discussing the results of a research project, speakers are asked to focus on their methods and the way they were implemented in Stata. Actual or simulated data may be used to illustrate the application or development of Stata commands or routines.

Examples of previous presentations can be viewed at: acceptable.

Structure of the 2023 Mexican Stata Conference

The conference will feature keynote addresses by two internationally renowned experts: Dr. Benn Jann, from the Institute of Sociology of the University of Bern, Switzerland, specialist in social sciences; and Dr. Tomás Nuño from the College of Public Health of the University of Arizona, specialist in the area of health sciences.

Considerations for submitting a presentation:

1. If you would like to discuss an idea for a presentation or have questions about the program format, please contact a member of the scientific committee.
2. If you wish to deliver a presentation on the day of the event, please submit an abstract no longer than 200 words (ASCII text, Notepad, with no mathematical symbols) using the online submission form or send an e-mail to the Scientific Committee.
3. The deadline for papers is May 14th, 2023 (12:00 PM Mexico City).
4. Please include a brief, informative title related to your work. If your presentation is the work of multiple authors, please indicate who will speak. The speaker will not be charged a registration fee for the conference.
5. Speakers are required to provide electronic materials (a copy of the presentation and any data set or program, where applicable) to the Organizing Committee for publication on the StataCorp website.

Presentations should contain at least one of the following:

- A discussion of user-written Stata programs.
- Research or teaching case studies using Stata.
- Discussions of data management issues with Stata
- Reviews of analytical issues in Stata.
- Critiques and/or improvements of the Stata environment in specific fields.

The presentations will be followed by a question-and-answer session with the audience and the developers of Stata.

Venue

Centro de Investigación en Alimentación y Desarrollo (CIAD)
Carretera Gustavo Enrique Astiazarán Rosas, No. 46, Col. La Victoria, CP. 83304, Hermosillo, Sonora, Mexico.

Registration

MultiON Consulting will sponsor the cost of one registration per selected paper, regardless of the number of authors involved.
